Another Green Clean Class back Home!

Monday 14th September 2009

Bodmin's pannier No: 6435 is returning home to its South Wales stomping ground to appear at the Pontypool and Blaenavon Railway's gala later this summer, and I have been asked by the railway to arrange a day's charter using this diminutive tank.

We will have use of the whole of the railways running line, which has had some extensive work done in the last 12 months since our last charter there. We have requested at least two trains:- a passenger rake of two maroon mk'1s with a van or two tagged on. Also a short goods, comprising of box vans and low-mac (with suitable load). We are also actively seeking some period road vehicles to pose alongside the line, especially a tractor or two for the country-side shots.

We will start at 08:00, running through to the early evening; there will be a short night shoot. We have requested the buffet to be open throughout the day.

Price £40.00 for the day. Cheques to be made payable to "*Pontypool & Blaenavon Railway*" and dated 14th September 2009.
